

The Synd-EZ kit provides a solution for damage to the syndesmosis joint. This simple yet effective device is designed to stabilize the ankle and can be used with or without a fracture plate.

## Versatile implant design

- Ideal for use with or without a fracture plate
- Washer included for use without a fracture plate\*
- Top hat is low profile and self centering on fracture plates

## Adjustable knotless construct

- Simplifies surgical procedure
- Offers confidence of flipped medial button from white/black toggle suture

## Counter traction suture & tension handle

- Integrated for predictably smooth tension of construct

# Synd-EZ Kit *Syndesmosis Repair*
